

We are proud to announce that as from 1<sup>st</sup> July 2016 we have started working as a single 'Super-Practice' with St Marys Medical Centre, Sheepmarket Surgery and Little Surgery in Stamford, Oundle Medical Practice, Lakeside Surgery in Corby & Headlands Surgery in Kettering. The organisations now form the Lakeside Healthcare Group and will operate across all existing sites.

This is very exciting news for all patients and staff as it ensures sustainability and continuity of service as well as terrific opportunities for future growth.

Patients will continue to access services in the same way that they have become accustomed to in recent years, delivered by the same doctors, nurses and staff, in the same buildings.

Being part of a larger organisation will allow us to offer a greater range of services in the future, target our most vulnerable patients with earlier and more effective healthcare interventions and partner our local hospitals to support care nearer to home.
